IIIrd International Conference “Lakes of Eurasia: Problems and Solutions” Kazan, May 20-23, 2025

First Circular

Dear colleagues,
you are invited to take part in the IIIrd International Conference
“Lakes of Eurasia: Problems and Solutions”

CONFERENCE THEMES

- Transboundary lake-river system. Challenges and solutions for shared use
- Current issues in lake conservation and use
- Alien species and their role in modifying lake ecosystems
- Dealing with the challenges of predicting intrasecular changes in hydrological regimes and ecosystems
- Emerging methods in ecosystem modeling to support decision-making
- Legal and regulatory framework for water protection
- Innovative methods in lake monitoring
- Water and sediment quality; setting permissible human impact rates
- Recreational use of lakes: regional experience
- Ecological remediation of water bodies and infrastructure building
- Small lakes and mires as types of wetlands
- Winter limnology: modern challenges and results
- Lake-river system sediments: paleogeographical and paleoecological reconstructions
- Organization and techniques of long-term hydrophysical and chemical-biological measurements in lakes
- Changes in the thermal, ice, light, and hydrodynamical regime of lakes under the observed climate variability

DATES AND DEADLINES

Until December 1, 2024 – registration for the conference

Until February 1, 2025 – submission of papers for publication

Until March 1, 2025 – program drafting

Until April 1, 2025 – program finalizing, conference fee payments
